

Why IMC?

Your choice for Mining Brakes

IMC is the brake supplier of choice in the mining industry. Over the past 12 years, IMC has built up a vast range of parts, developed through many years of research, generated from our expertise and dedication, our understating of business solutions and precision engineering. Recently the introduction of our own Advanced Friction Paper (AFP), a man-made fibre with a stable braking power, together with superior engagement, has created a shift in the industry by more than doubling the life of a brake using standard friction paper. This makes IMC the correct choice for your wet friction needs.

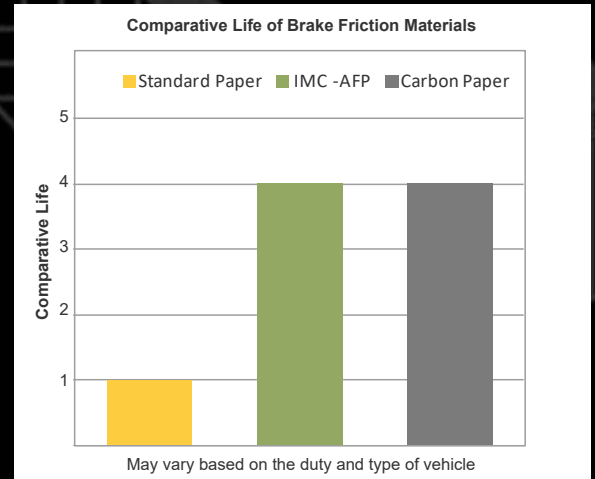

Our customer feedback surveys continually show that we are better than the OEMs and our nearest competitors for Price, Lead Time, Quality and Life of product.
